

TROPAC Workplace Injury Management & Return To Work Policy

TROPAC is committed to the prevention of illness and injury to its employees by providing a healthy and safe working environment. The purpose of this policy is to support our injury management program which provides a framework for a coordinated and integrated approach to workplace injury and illness. The Organisation recognises that management and workers have a social and economic interest in the promotion of safe return to work for its employees.

Across all of TROPAC operations, we develop, implement, and maintain effective Workplace Injury Management procedures that are compliant with our legislative requirements.

This is achieved by:

- Ensuring that contact is made with the injured employees as soon as practicable after the injury.
- Ensuring that returning to work as soon as possible is the normal expectation, with an injury management plan created where required.
- Ensuring that participation in a return-to-work program does not disadvantage employees in any way.
- Providing access to accredited rehabilitation providers, where required, to ensure the provision of quality rehabilitation services. An employee may however choose their own rehabilitation program.
- Consulting with employees and their representatives regarding the rehabilitation program.
- Cooperating with any onsite reporting and rehabilitation requirements.
- Appointing a workplace-based return to work coordinator where required.

TROPAC seeks to continually improve our Workplace Injury Management & Return To Work Policy by encouraging feedback from staff, suppliers, and customers. Its effectiveness is continually reviewed by Management to ensure the goals of the organisation are met and we maintain our focus on sustainable business practices.
